1. Aims

This policy aims to ensure:

- That children access a broad and balanced curriculum that gives them the broad range of knowledge and skills needed for good progress through school and life
- Quality and consistency in teaching and learning so that every child makes good progress and no child gets left behind
- A close working partnership between staff and parents and/or carers
- Every child is included and supported through equality of opportunity and anti-discriminatory practice

2. Legislation

This policy is based on requirements set out in the [statutory framework for the Early Years Foundation Stage \(EYFS\) that applies from September 2021](#).

3. Structure of the EYFS

Our Early Years provision provides care for children aged 3 months to 5 years.

Our Nursery settings have spacious classrooms rooms catering to different age groups:

Sunshine and Stars Room – 3 – 26 months

Moonbeam Room – 2 – 3 years

Rainbow and Rockets Room – 3 – 5 years

All classrooms have access to a spacious outdoor play area.

4. Curriculum

Our early years setting follows the curriculum as outlined in the latest version of the EYFS statutory framework that applies from September 2021.

The EYFS framework includes 7 areas of learning and development that are equally important and interconnected. However, 3 areas known as the prime areas are seen as particularly important for igniting curiosity and enthusiasm for learning, and for building children's capacity to learn, form relationships and thrive. The **prime areas** are:

- Communication and language
- Physical development
- Personal, social and emotional development

The prime areas are strengthened and applied through 4 **specific areas**:

- Literacy
- Mathematics
- Understanding the world
- Expressive arts and design

4.1 Planning

The EYFS at Just for Kidz provides a happy, safe, caring, stimulating and well-organised environment in which children learn by building upon what they already know and can do.

Staff at Just for Kidz look carefully at the children in their care, consider their needs, their interests and their stages of development and use all of this information to help plan a challenging and enjoyable experience across all areas of Learning and Development. In order to do this, staff working with the youngest children are expected to focus strongly on the 3 prime areas.

In planning and guiding children's activities, staff reflect on the different ways that children learn and include these in their practice. Where a child may have a special educational need or disability, staff consider whether specialist support is required, linking with relevant services from other agencies, where appropriate.

4.2 Teaching

Each area of learning and development is implemented through planned, purposeful play, and through a mix of adult-led and child-initiated activities. Staff respond to each child's emerging needs and interests, guiding their development through warm, positive interaction. Our outdoor provision mirrors the opportunities available to the children in inside offering a mix of adult-led and child-initiated learning.

5. Assessment

At Just for Kidz, ongoing assessment is an integral part of the learning and development processes. Staff observe pupils to identify their level of achievement, interests and learning styles. These observations are used to shape future planning. Staff also take into account observations shared by parents and/or carers.

Within the first 6 weeks that a child **starts**, staff will note the Baseline Assessment based on their observations and personal judgement.

At the **end of the EYFS**, staff complete the EYFS profile for each child. Pupils are assessed against the 17 early learning goals, indicating whether they are:

- Meeting expected levels of development
- Not yet reaching expected levels ('emerging')

The profile reflects ongoing observations, and discussions with parents and/or carers. The results of the profile are shared with parents and/or carers for their child.

The profile is moderated internally (referring to the Development Matters [guidance](#)) and in partnership with other local schools, to ensure consistent assessment judgements. EYFS profile data is submitted to the local authority.

6. Working with parents

Key to ensuring high quality early years' experience is to ensure continuity between all settings and to ensure that the children's social, emotional and educational needs are addressed appropriately. At Just for Kidz, transition is seen as a process, not as an event and is planned for and discussed with parents, children and practitioners of the setting.

At Just for Kidz we also recognise that parents are the children's first and most enduring educators and that when parents and practitioners work together the results have a positive impact on children's development and learning.

We encourage parent partnership through:

- Showing respect and understanding for the role of the parent in the child's education
- Listening to accounts of their child's development and any concerns they may have
- Making parents feel welcome by being friendly, approachable and having an open door policy
- Maintaining an on-going dialogue
- Being flexible in arrangements for settling children in
- Meeting with parents of children regularly to discuss progress
- Inviting parents in to share their child's Learning Journal and see a range of work
- Through the use of Learning Journals, an online learning journal which parents can access at home

- Inviting parents in the school to share their specialised skills
- Inviting parents to accompany staff on trips.

We recognise that children learn and develop well when there is a strong partnership between staff and parents and/or carers.

Parents and/or carers are kept up to date with their child's progress and development. The progress check and EYFS profile helps to provide parents and/or carers with a well-rounded picture of their child's knowledge, understanding and abilities.

Each child in Nursery is assigned a key person who helps to ensure that their learning and care is tailored to meet their needs. The key person supports parents and/or carers in guiding their child's development at home. The key person also helps families to engage with more specialist support, if appropriate.

7. Safeguarding and welfare procedures

It is important to us that all children in the school are 'safe'. We aim to educate children on boundaries, rules and limits and to help them understand why they exist. We provide children with choices to help them develop this important life skill. Children should be allowed to take risks, but need to be taught how to recognise and avoid hazards. We aim to protect the physical and psychological well-being of all children. We know that children learn best when they are healthy and safe, when their individual needs are met and when they have the chance to build positive relationships with the adults around them and their peers. The rest of our safeguarding and welfare procedures are outlined in our safeguarding policy.

8. Monitoring arrangements

This policy will be reviewed annually by the nursery manager.
